## ***Command and Control***

2013-09-17

the oscar shortlisted documentary command and control directed by robert kenner finds its origins in eric schlosser s book and continues to explore the little known history of the management and safety concerns of america s nuclear arsenal deeply reported deeply frightening a techno thriller of the first order los angeles times a devastatingly lucid and detailed new history of nuclear weapons in the u s fascinating lev grossman time magazine a myth shattering exposé of america s nuclear weapons famed investigative journalist eric schlosser digs deep to uncover secrets about the management of america s nuclear arsenal a groundbreaking account of accidents near misses extraordinary heroism and technological breakthroughs command and control explores the dilemma that has existed since the dawn of the nuclear age how do you deploy weapons of mass destruction without being destroyed by them that question has never been resolved and schlosser reveals how the combination of human fallibility and technological complexity still poses a grave risk to mankind while the harms of global warming increasingly dominate the news the equally dangerous yet more immediate threat of nuclear weapons has been largely forgotten written with the vibrancy of a first rate thriller command and control interweaves the minute by minute story of an accident at a nuclear missile silo in rural arkansas with a historical narrative that spans more than fifty years it depicts the urgent effort by american scientists policy makers and military officers to ensure that nuclear weapons can t be stolen sabotaged used without permission or detonated inadvertently schlosser also looks at the cold war from a new perspective offering history from the ground up telling the stories of bomber pilots missile commanders maintenance crews and other ordinary servicemen who risked their lives to avert a nuclear holocaust at the heart of the book lies the struggle amid the rolling hills and small farms of damascus arkansas to prevent the explosion of a ballistic missile carrying the most powerful nuclear warhead ever built by the united states drawing on recently declassified documents and interviews with people who designed and routinely handled nuclear weapons command and control takes readers into a terrifying but fascinating world that until now has been largely hidden from view through the details of a single accident schlosser illustrates how an unlikely event can become unavoidable how small risks can have terrible consequences and how the most brilliant minds in the nation can only provide us with an illusion of control audacious gripping and unforgettable command and control is a tour de force of investigative journalism an eye opening look at the dangers of america s nuclear age

## ***The Damascus Blood-libel Incident of 1840***

1999

in 1840 the disappearance of father thomas and his servant from damascus caused accusations from local jewish community and resulted in the spread of anti semitic sentiment throughout the middle east and europe

## **The Damascus Events**

2024-05-02

a superb account of the 1860 damascus massacres much neglected nowadays but central to the creation of the modern middle east simon sebag montefiore a stunning portrait of the ottoman empire and of damascus during a time of crisis absolutely riveting peter frankopan this remarkable book recreates one of the watershed moments in the history of the middle east the ferocious outbreaks of disorder across the levant in 1860 which resulted in the massacre of thousands of christians in damascus eugene rogan brilliantly recreates the lost

world of the middle east under ottoman rule the once mighty empire was under pressure from global economic change and european imperial expansion reforms in the mid nineteenth century raised tensions across the empire nowhere more so than in damascus a multifarious city linked by caravan trade to baghdad the mediterranean and mecca the chaos of languages customs and beliefs made damascus a warily tolerant place until the reforms began to advantage the minority christian community at the expense of the muslim majority but in 1860 people who had generally lived side by side for generations became bitter enemies as news of civil war in mount lebanon arrived in the city under the threat of a french expeditionary force the ottomans dealt with the disaster effectively and ruthlessly but the old generally quite tolerant damascene world lay in ruins it would take a quarter of a century to restore stability and prosperity to the syrian capital this is both an essential book for understanding the emergence of the modern middle east from the destruction of the old ottoman world and a uniquely gripping story

## Encyclopedia of the Ottoman Empire

2010-05-21

presents a comprehensive a to z reference to the empire that once encompassed large parts of the modern day middle east north africa and southeastern europe

## The Nordic Paul

2008-08-21

this book contains essays on the letters and theology of the apostle paul from leading pauline scholars the majority of the essays are based on papers given in the first finnish national

seminar on paul held in the university of helsinki in january 2007 finnish contributions to scholarly discussion on pauline theology have been widely recognized as challenging and thought provoking particularly in regards to paul s view on the mosaic law and soteriology heikki räisänen s view on paul s inconsistent thinking about law and other topics has served to polarize discussion among finnish scholars the opening essay by stephen westerholm outlines the debate and its relation to international discussion the essays by heikki räisänen kari kuula and timo laato are fruits of this on going discussion niko huttunen approaches the question of paul and the law from the stoic point of view while risto saarinen examines its relation to the theology of martin luther other principal topics include paul s opponents and methodological discussion a comprehensive way to analyze paul s argumentation is sought in mika hietanen s essay lauri thurén examines how paul s rhetoric must be taken into account when deciphering historical information from his letters his essay takes paul s opponents as an example the opponents are also dealt with by lars aejmelaeus and nina pehkonen their essays focus on anti pauline opposition in corinth and the antagonists in philippians respectively

## Command and Control

2014-01-23

resolving to command your life and mind in the coming year get all the support and guidance you need to be a success at getting command of your life command and control nuclear weapons the damascus accident and the illusion of safety since the dawn of the nuclear age a dilemma has been left unresolved how can we possess and deploy weapons of mass destruction without being destroyed by them in his book command and control nuclear weapons the damascus accident and the illusion of safety eric schlosser casts light on the largely hidden world of america s atomic arsenal combining the thrilling unsettling accounts of real life nuclear accidents and near misses with the stories of the officers scientists and policymakers who have devoted their lives to averting a nuclear holocaust and in the process raises grave doubts about how much control we actually have even after years of scientific breakthroughs schlosser shows human fallibility and technological complexity still pose risks with horrific consequences that have largely eluded national debate so the question remains have we as americans made a mistake when we stopped worrying and learned to love the bomb

## The Orient of the Boulevards

2015-08-17

the author draws upon the methodologies of theater and cultural studies to examine the construction of the orient on the parisian stage during the nineteenth century the period of france s first imperial expansions into north africa and the middle east as an increasingly large segment of the french population moved into contact with the middle east and north africa as soldiers colonial administrators settlers and merchants the balance between fantasy and immediacy in orientalized drama shifted the domestic melodrama gave way to elaborately staged military spectacles based on current events performed before working class audiences many of whose members were to be called up for military service these spectacles bore explicit political and imperial agendas mining rich archival resources of play texts censorship reports critical reviews and contemporary writings on performance practice this book reveals the complex processes by which the institutions of popular culture helped shape nineteenth century notions of race ethnicity and nationality

## **Humanization of Arms Control**

2017-07-06

2 the use of nuclear weapons as a potential war crime

## **Consuls and the Institutions of Global Capitalism, 1783-1914**

2015-10-06

the nineteenth century saw the expansion of western influence across the globe a consular presence in a new territory had numerous advantages for business and trade using specific case studies de goey demonstrates the key role played by consuls in the rise of the global economy

## **The Significance of the Temple Incident in the Narratives of the Four Gospels**

2018-11-08

deolito vistar brings a new perspective to the interpretation of the temple incident a key event in jesus life by approaching the subject not from the historical jesus point of view but from that of the authors of the gospels using composition criticism as a method vistar sensitively analyzes the four gospels accounts of the incident and shows areas of commonalities and crucial areas where the four evangelists have their own distinctive understanding of what jesus meant by his protest in the temple this book is a helpful example of the use of composition analysis in the exegesis of gospel texts it is also a helpful study of what is now generally taken for granted in gospel scholarship that the four evangelists were both historians and theologians

## ***Shifting Power in Asia-Pacific?***

2016-11-03

this book investigates whether a power shift has taken place in the asia pacific region since the end of the cold war by systematically examining the development of power dynamics in asia pacific it challenges the notion that a wealthier and militarily more powerful china is automatically turning the regional tides in its favour with a special emphasis on sino us competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift the book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power ciap that includes 55 variables for 44 regional countries and covers a period of twenty years moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts by addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to washington and beijing

## **Repairing Infrastructures**

2020-10-13

an investigation of the causes and consequences of the strange ambivalent and increasingly central role of infrastructure repair in modern life infrastructures communication food transportation energy and information are all around us and their enduring function and influence depend on the constant work of repair in this book christopher henke and benjamin sims explore the causes and consequences of the strange ambivalent and increasingly central role of infrastructure repair in modern life henke and sims offer examples from local to global to investigate not only the role of repair in maintaining infrastructures themselves but also the social and political orders that are created and sustained through them

## **The U.S. Navy and the Rise of Great Power Competition**

2024-01-23

this volume describes how technological and geo political trends are rapidly transforming maritime affairs a mix of original and previously published material this volume describes how the 21st century great power competition is changing the face of naval operations in general and u s navy operations in the western pacific in particular the rise of an assertive china and its new anti access and area denial capabilities threaten the aircraft carrier based maritime dominance of the u s navy military and political trends in the western pacific and beyond suggest that the world is encountering a pivotal moment when existing weapons tactics and operations might be rendered obsolete by techno strategic change this volume considers these developments from three perspectives by describing 1 the techno strategic setting 2 the institutional constraints that impede the ability of the u s navy to respond to these changes and 3 a new approach to naval force planning and strategy to cope with these developments the volume culminates in a discussion of sophisticated strategies and operational concepts that position the u s navy and its maritime allies and partners to prevail in today s techno strategic churn this book will be of much interest to students of naval policy strategic studies asia pacific politics and international relations

## **The Global Politics of Artificial Intelligence**

2022-04-24

technologies such as artificial intelligence have led to significant advances in science and medicine but have also facilitated new forms of repression policing and surveillance ai policy has become without doubt a significant issue of global politics the global politics of artificial intelligence tackles some of the issues linked to ai development and use contributing to a better understanding of the global politics of ai this is an area where enormous work still needs to be done and the contributors to this volume provide significant input into this field of study to policy makers academics and society at large each of the chapters in this volume works as freestanding contribution and provides an accessible account of a particular issue linked to ai from a political perspective contributors to the volume come from many different areas of expertise and of the world and range from emergent to established authors

## ***Cold War Legacies***

2016-08-16

from futures research pattern recognition algorithms nuclear waste disposal and surveillance technologies to smart weapons systems contemporary fiction and art this book shows that we are now living in a world imagined and engineered during the cold war drawing on theorists such as jean baudrillard jacques derrida michel foucault luce irigaray friedrich kittler michel serres peter sloterdijk carl schmitt bernard stiegler and paul virilio this collection makes connections between cold war material and conceptual technologies as they relate to the arts society and culture

## **Digital Horror**

2015-10-13

in recent years the ways in which digital technologies have come to shape our experience of the world has been an immensely popular subject in the horror film genre contemporary horror cinema reflects and exploits the anxieties of our age in its increasing use of hand held techniques and in its motifs of surveillance found footage fictional films that appear real comprising discovered video recordings left behind by victims protagonists and digital haunting when ghosts inhabit digital technologies this book offers an exploration of the digital horror film phenomenon across different national cultures and historic periods examining the sub genres of cctv horror technological haunting snuff films found footage and torture porn digital horror it demonstrates is a product of the post 9 11 neo liberal world view characterised by security paranoia constant surveillance and social alienation digital horror screens its subjects via the transnational technologies of our age such as the camcorder and cctv and records them in secret footage that may one day be found

## ***Department of Defense Authorization for Appropriations for Fiscal Year 1983***

1982

the essential account of geopolitics right now from one of our greatest living intellectuals including a new afterword on president donald trump noam chomsky philosopher political writer fearless activist no one has done more to question the hidden actors who govern our lives calling the powers that be to account here he presents who rules the world his definitive account of those powers how they work and why we should be questioning them from the dark history of the us and cuba to china s global rise from torture memos to sanctions on iran this book investigates the defining issues of our times and exposes the hypocrisy at the heart of america s policies and actions the world s political and financial elite are now operating almost totally unconstrained by the so called democratic structure with climate change and nuclear proliferation threatening our very survival dissenting voices have never been more necessary fiercely outspoken and rigorously argued who rules the world is an indispensable guide to how things really are

## **Who Rules the World?**

2016-05-05

robert crowcroft has assembled a world class international cast of outstanding scholars and international figures to produce a stimulating collection of essays on applied history and policy making with contributors such as philip bobbitt margaret macmillan and jeremy black this collection of essays addresses some of the most important geopolitical challenges confronting the world today from reconstructing collapsed political regimes to security competition in the china seas and the evolution of salafi jihadi ideology it explores a range of statecraft policy and strategy the essays span a number of policy areas and historical problems tackling important questions about what historians do and should do and considering the nature and limits of historical judgement with some examining how applied history can be used to rethink contemporary challenges others explore how it has been used and abused in the past making a splash in intellectual debate by making a definitive case for applied history this book demonstrates that a knowledge of the past and the insight it provides is imperative to effective statecraft

## **Applied History and Contemporary Policymaking**

2022-10-06

bestselling author michael shermer s exploration of science and morality that demonstrates how the scientific way of thinking has made people and society as a whole more moral from galileo and newton to thomas hobbes and martin luther king jr thinkers throughout history have consciously employed scientific techniques to better understand the non physical world the age of reason and the enlightenment led theorists to apply scientific reasoning to the non scientific disciplines of politics economics and moral philosophy instead of relying on the woodcuts of dissected bodies in old medical texts physicians opened bodies themselves to see what was there instead of divining truth through the authority of an ancient holy book or philosophical treatise people began to explore the book of nature for themselves through travel and exploration instead of the supernatural belief in the divine right of kings people employed a natural belief in the right of democracy in the moral arc shermer will explain how abstract reasoning rationality empiricism skepticism scientific ways of thinking have profoundly changed the way we perceive morality and indeed move us ever closer to a more just world

## **The Moral Arc**

2015-01-20

humanity must steer its evolution as human knowledge moves a step ahead of darwin s theories this book presents the emergence of human made meta evolution shaping our alternative futures this novel process poses fateful challenges to humanity which require regulation of emerging science and technology which may endanger the future of our species however to do so successfully a novel humanity craft has to be developed main ideologies and institutions need redesign national sovereignty has to be limited a decisive global regime becomes essential some reevaluation of widely accepted norms becomes essential and a novel type of political leader based on merit in addition to public support is urgently needed taking into account the strength of nationalism and vested interests it may well be that only catastrophes will teach humanity to metamorphose into a novel epoch without too high transition costs but initial steps such as united nation reforms are urgent in order to contain calamities and may soon become feasible being both interdisciplinary and based on personal experience of the author this book adds up to a novel paradigm on steering human evolution it will be of great interest to scholars and researchers of modern history evolution sciences future studies political science philosophy of action and science and technology it will also be of wide appeal to the general reader anxious about the future of life on earth comments on the corona pandemic add to the book s concrete significance
